

Walk in freezer & walk in cooler ▶▶

ETSP-WLT series

ETSP-WLT series are walk in freezer & walk in cooler. Wide variety of indoor/outdoor cold rooms from simple cold rooms for reliable storage to validated, precisely-controlled temperature/humidity rooms for laboratory applications, research & industrial research, critical warehouse cold storage, stability test rooms etc...

ETSP-WLT series are manufactured according to the Total Quality procedures, in compliance with the ISO 9001 standard.

ETSP-WLT series

General Features

- Full automatic Micom controller for precise control and easy operation
- Excellent energy efficiency
- Minimize leak of cold air by using the fastener connection between panels delivering perfect seal
- Noise reduction and vibration reduction system
- Adiabatic liquid filter to boost refrigerating feature and protect the compressor
- Allows easy servicing and upgrades.
- Optional air curtain

Technical Features

- **Temperature range** | Customer specification
- **Temperature stability** | less than $\pm 0.5^{\circ}\text{C}$
- **Temperature uniformity** | less than $\pm 2.0^{\circ}\text{C}$
- **System Dimensions** | Customer specification
- **Safety devices** | Leakage breaker, circuit breaker, electrical over current relay, High & low pressure switch for compressor, compressor built in protector, inside door opening device etc...
- **Input Power Requirements** | 220V / 380V , 50Hz/60Hz, 1PH/3PH (Changeable according to customer specification)
